Grampian data The local update for today (and across the weekend), including the 7-day rolling positivity rate, is shown below. As a reminder, this rate is arrived at by dividing the number of positive tests in the past 7 days by the number of tests carried out in the past 7 days. Repeat tests are included in both categories. The figure for the "daily number of new people tested" is only for the number of tests for people who have not been tested previously.

A national update is available on the [Public Health Scotland daily dashboard](#).

Tune of the day Today's musical ditty comes from Lorraine Menchini. She chose Tom Walker's [Leave A Light On](#). Lorraine said: "A wee shout out for the CLAN/NHS endowment fund art installation project 'Light The North ' and everyone who made it happen . NHS staff took part in a virtual wellbeing art project in February which led to the creation of the NHS Tribute lighthouse 'The Outpost' – which is currently standing currently in Victoria Park, in Aberdeen

"It's a great tribute captured by talented artists how NHS staff have coped during the pandemic . Have a wee walk at lunchtime and take a look."

We're always on the look out for your suggestions of a great song to end the day (or start it, depending on when you read this brief) so just drop us a line via gram.communications@nhs.scot That's also your first port of call if you've got any queries or an item to share.
